JAVASCRIPT HOMEWORK

12	5	87	56	91
33	40	53	66	33
14	11	25	32	65
90	42	63	22	72
35	55	67	64	35

Write a **JavaScript** program that:

1. Uses **Nested for loops** to go through all elements of the array
2. Checks if a number is **even**
3. Calculates the **product of all even numbers**
4. Displays only the **final product**
