

C PROGRAMMING FUNDAMENTALS HOMEWORK

1. Define the following:
 - a) C Programming
 - b) Variables
 - c) Constant
2. Give 3 rules of naming a variable.
3. What is the difference between local variable from global variable
4. Which value is stored in the variable **z**:

```
int x = 6, y = 8, z;
```

```
x++;
```

```
y %= 3;
```

```
z = x + y;
```
