Holidays package of ICT Skills
Level4 ICT Classes.

1. What are requirements to select an operating system?
2. Give any five (5) examples of data type.
3. Discuss any five (5) functions of an operating system.
4. What are the five (5) main parts of a computer keyboard?
5. Outline any four (4) disk-based file systems.
6. What is the difference between computer and computer system?
7. Give any four (4) various features offered by the New Technology File System (NTFS)
8. Internet, intranet and extranet, they all rely on the same TCP/IP technologies. However, they are different in terms of levels of access as they allow various users inside and outside the organization and the size of the network. Clearly explain the levels of access and compare them by using a diagram that demonstrates those levels.
