COMPOSTION WRITING (20 Marks)

Reading Scenario

Boss: It's not that he doesn't care about our physical environment, but that he loves and totally submits himself to the people's right to self-determination.

SAM: (Voice rising) Your reluctance is an abdication of responsibility! (At the top of her voice) Where's the courage of your convictions?

Boss: Do I notice a ring of anger in your voice?

SAM : (Angrily) Simbi is a vital part of our common heritage. It's the only migration corridor left that links the northern and southern game reserves-ensuring the survival of our wild animals. The tourist resort will cut across and ruin everything. It'll separate the two game Reserves into unviable islands. Soon the animals will inbreed and die out, and your much touted tourism will suffocate. Simbi is not just a forest it is the very recipe for our life.

Boss: And democratic processes guarantee the enjoyment of quality life.

TASK

As the chairperson Environment Club Peter's Senior School, write a letter of complaint to the Minister of Environment. Use persuasive language to raise arguments against cutting down of the forest to start a resort. You may use the views of Sam
